Using Bluetooth: Pairing Your Device

Pair the Bluetooth headset for the first time
1. Please kindly place your wireless headset with your phone or other device within 1 meter when pairing, the closer the better
2. Turn on the switch-on button to power the headset, and the blue indicator light will quickly flash 3 times at first, afterwards directly enter into the pairing status, a red & blue light will flash alternately
3. Activate the Bluetooth Feature on your phone or other device to search the headset, H313 should appear on your device menu. Select "H313" on the device to connect. If your device asks for a password, please enter 0000 on your device.
4. You will hear a confirmation tone once paired with the device, and the blue indicator light will flash twice every 5 seconds, now you can listen to music or enjoy your call conversation by Bluetooth.

Note: The pairing generally takes about 60 seconds. If the phone or other device is failed to pair with the headset, the red indicator light will flash slowly, and you will need to repair (see steps 1 ~ 4). If the headset still fails to connect with the Bluetooth device more than 10 minutes, then the headset will power off automatically. Also please make sure to shut the switch-off button to save battery.

Connect to Two Bluetooth devices at the same time
1. Please follow the above pairing steps 1 ~ 4 to connect your first Bluetooth device with the headset
2. Turn off the Bluetooth Feature of the first Bluetooth device
3. Repeat the same pairing steps 1 ~ 4 on the second Bluetooth device with the headset
4. Then turn on the Bluetooth Feature of the first Bluetooth device, and connect with the headset H313. Now the Headset will be connected with two Bluetooth devices at the same time, and you can listen to music or enjoy your call conversation by Bluetooth

Incoming Calls Operations

1. Answer a Call: Briefly press the multifunction button to answer the phone call
2. End a Call: Briefly press the multifunction button to hang up the phone call during the conversation
3. Reject a Call: Press and hold the multifunction button to reject a call
4. Last Number Redial: Press the multifunction button twice to redial the last number
5. Switch Music and Calls: Once you receive or make a call while listening to music, the music will pause until the call ends.

Activating voice dialing

Please make sure your mobile phone support the voice dialing function and come with the voice tag, in this way, you can use the voice dialing function. First of all, please press and hold the multifunction button for 1 second in standby status, then the voice dialing is activated. Then, you can speak out the voice tag, such as the name or number of the person you wish to call, or the music you would like to listen to, and the Bluetooth device will make the response accordingly.

Remark: Depending on your phone type, the actual voice dialing operation may be different.

Charging the Headset

The Bluetooth Headset H313 comes with the rechargeable battery. Please kindly charge the battery fully before using the headset for the first time.
1. Plugging the charging cable in the USB charge port
2. The red indicator light remains on when charging
3. The fully charging takes around 2 hours
4. The red indicator light goes out and the blue indicator light remains on afterwards when full charged

Important and Noted:

1. Water and Moisture – The unit should not be used near water. For example: near a bathtub, washbowl, kitchen sink, laundry tub, swimming pool or in a wet basement.

2. Heat - The unit can work at ~20℃ ~ 65℃, and it should be situated away from heat sources such as radiators, heat registers, stoves or other appliances (including amplifiers) that produce heat.

3. Power Sources – The unit should be connected to a USB power supply only of the type described in the operating instructions or as marked on the appliance.

4. Cleaning – The unit should be cleaned only using a warm damp cloth. Do not use solvents, etc.

5. Objects and Liquid Entry – Care should be taken so that objects do not fall and liquids are not spilled into any openings or vents located on the product.

6. The product shall not be exposed to dripping or splashing and should not be placed near objects filled with liquids such as vase to avoid any damage.

7. To prevent fire or electric shock, please check if the voltage of the power outlet is the same with the specified supply voltage of this unit.

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
